Following up on the idea of close collaboration with other musicians and artists — something that was clearly evident on **Matador** — **Matador Remixed** feels like a natural and obvious next step for Arms and Sleepers. The latest release features 9 remixes by other artists and friends, and 1 remix by Arms and Sleepers themselves. **Uzi & Ari**, **Lymbyc Systym**, **Amanda Rogers**, **Boy In Static/The Consulate General**, **The American Dollar**, **Nolens Volens**, **Thisquietarmy**, **Elika** and **Bigadiga** all contribute and help create quite a diverse album, from snippets of R&B and club music to singer/songwriter moments to electronica and trip hop-induced tracks. By the end of 44 minutes, it's clear that **Matador Remixed** is fully capable of standing on its own as a complete piece of music, independent of **Matador** and highlighting each of the artists' exceptional compositional skills. Every single track presents a unique and tasteful approach to song craft, making for a satisfying and complete listen from beginning to end. The feeling of nostalgia that is present throughout **Matador** still remains, but this time seen through quite a different lens — in fact, 10 different lenses each looking into quite a different direction.

Matador Remixed is Arms and Sleepers' 11th release and the band's first remix album. It's also the 4th release in 6 months, a busy time period which has seen the band touring Europe and North America, completing a few remixes of their own, and putting out 4 releases including the second full-length album **Matador**, a split EP with The American Dollar **From The Inland Sea**, **Matador Alternate Versions/B-Sides** EP, and the aforementioned remix album. Arms and Sleepers return to Europe for a month-long tour in May, 2010 promoting this latest release.

The first 100 units come on beautiful clear transparent vinyl which is only available direct from Expect Candy. All copies include a digital download code.

Tracklist:

1. Matador (Uzi and Ari remix)
2. The Architekt (Lymbyc Systym remix)
